

BRENNAN EXPANDS ITS LINE

...With Push-To-Connect And Test Point Fittings.

The company that offers more hydraulic fittings than anyone else has expanded its line once again. Brennan is now your source for Push-To-Connect pneumatic fittings and Test Point hydraulic fittings.

Push-To-Connect fittings allow instant connections in pneumatic systems simply by pushing the tube into the fitting. Disconnections are just as easy.

Test Point fittings allow quick couplings to monitor and control pressure. They are ideal for hydraulic oils and other mineral-based fluids used in off-road mobile equipment.

Brennan offers a wide range of styles and sizes for both fitting categories, including the most popular models. All are in stock now and available for immediate delivery. And all feature the same consistent quality you've come to expect from Brennan.

For all of your fittings and adapters, we're the logical choice.
